TIGHTS AT A FAIR.

A dispatch from Sausalito, Cal., says: Two little actresses, arrayed in fleshings that set off their figures to the best advantage possible, have succeeded in creating a scandal in local church circles that seems to grow sweeter in the mouth of Dame Grundy with the lapse of time. For a time the tale was smothered, but the details have finally leaked out to the keen embarrassment of a pillar of the local Congregational church, who has since been placed in the role of black sheep, though entirely innocent of any intentional wrong doing.

A few evenings ago a Congregational church fair was held at what is known as the Exposition grounds in the northern part of the town in order to assist in paying the salary of the pastor, Wilfrid Johansen, regarded as one of the pillars of the church, who is employed in a large metropolitan dry goods house, took a keen interest in the affair, and informed some of his colleagues in the establishment where he is employed that he would like to engage talent for the occasion. A few of these young gentlemen thought it would be a good scheme to "put up a job" on their pious friend, and, telling him they would render what aid they could, engaged the services of two young ladies who could be depended upon to create a sensation when the time arrived.

Mr. Johansen was informed in a few days that Miss Patterson and Miss Arkanian, together with one J. E. Barr, would furnish some "Irish specialties" at the fair, and the delighted church member was instrumental in having this feature of the programme given a prominent place on the circulars issued. In addition he took the three performers to his residence on the evening of the entertainment and escorted them to the exposition grounds.

Everything went smoothly until the "Irish specialty" part of the programme was reached. Mr. Barr and his two female companions marched out and did a cake-walk. The ladies were arrayed in tight and executed some fancy dancing on the side that would have been heartily applauded at a vaudeville entertainment. With freezing glances in the direction of Johansen, whose face was the color of a boiled lobster, the ladies present sedately marched from the hall.

"Oh, if I only had a bouquet, I would throw it on the stage," facetiously remarked a young gentleman present as he departed with his sweetheart.

"And if I had brick I would do the same thing," answered the mortified damsel.

A strenuous effort was made to keep the affair from reaching the general public and Mr. Johansen has been kept busy making explanations for a week. It is asserted that his colleagues found the story entirely too good for a limited circle.

AN ANCIENT TREASURE.—An archaeological find of great importance is reported from the city of Polenza, in southern Italy, says the Chicago Record. While several laborers were tilling a field at Insira they discovered what they considered to be an ancient tomb, containing a bronze vase. They opened the vase and found within it no less than 5000 silver coins. The find impression seems to have been to keep the thing secret and to divide the rich windfall. But better feeling prevailed for fear of the law regarding treasure trove, which is most stringent in Italy. So Signor Moreno, the owner of the field, was notified, and the vase and all its contents are now in possession of the authorities at Polenza. The coins seem to have been little used, some of them apparently never in circulation at all, being as bright and fresh as when first struck. Each of them weighs exactly five grammes. A few bear the impression of the legendary she-wolf and probably belong to the Roman republican era. The others have the image of one of the earlier Caesars as far down as Claudius, about a dozen showing the head of a god, perhaps Mercury, on the reverse all have inscriptions which will, no doubt, be most interesting to numismatists. The field in which the treasure was found is now being cultivated as never before since Aeneas landed in Latium.

STRUCK BY LIGHTNING.—Lightning struck a car on the Great Falls Electric Road, eight o'clock Wednesday night. The electricity struck the trolley wire near the District of Columbia line, and ran down into the motor of a passing car, setting fire to the casing and woodwork. The smoke and flames of the burning car alarmed the passengers, some of whom leaped from their seats to the ground before the car was stopped. Mrs. Marian Joyce broke her right leg near the ankle in attempting to get out of the car.

EXTENSION OF THE NARROW GAUGE RAILROAD.—The Piedmont Virginian says: "We have received a letter from a gentleman in New York who is connected with capitalists, asking if our people are willing to help the railroad from here to Madison. He says with a little assistance from our people and the right of way the road will be put under contract at once."

Discovered by a Woman.

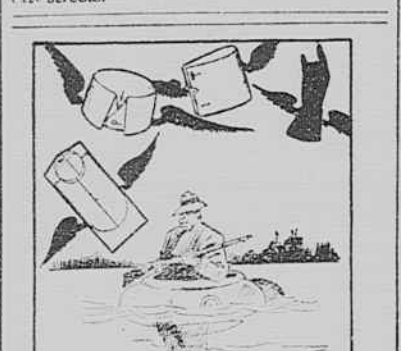

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hannick & Co., of Shelby, N. C. Trial bottles free at E. S. Leadbeater & Son's Drug Store, Regular size 50c and \$1.00. Every bottle guaranteed.

MEDICINAL.

FIFTY YEARS OLD

Try let your neighbors guess you are even ten years more? Better give them good reasons for guessing the other way. It's very easy; for nothing tells of age so quickly as gray hair.

Ayer's Hair Vigor

is a youth-renewer. It hides the age under a luxuriant growth of hair the color of youth.

It never fails to restore color to gray hair. It will stop the hair from coming out.

It feeds the hair bulbs. Thin hair becomes thick hair, and short hair becomes long hair.

It cleanses the scalp; removes all dandruff, and prevents its formation.

We have a book on the Hair which we will gladly send you.

It does not obtain all the benefits extended from the
